

Jilmer John Cariaso

Game Developer

+63 920 813 0511 • jjbconecodeman@gmail.com • [Portfolio](#) • [GitHub](#)

Summary

Game Developer with experience in Unity, C#, and multiplayer systems. I focus on creating engaging player experiences while maintaining technical excellence.

Technical Skills

Unity C# Phaser 3 Game Design Multiplayer Systems Colyseus Node.js Supabase
React TypeScript JavaScript HTML CSS Material UI OpenAI API GitHub GitLab

Professional Experience

Cloudnode IT Solutions OPC

May 2024 - Aug 2025

Avalorians - Lead Game Developer

Telegram Mini-app PvP battle game with city building mechanics. Built as a Clash Royale-like experience with reward-based progression.

- Led the game development and mentored a junior developer
- Built real-time PvP battles, city building system, and game mechanics
- Reduced frontend load times by 50% and implemented linear interpolation to stabilize frame rate across devices
- Implemented adaptive delta timing on multiplayer server to handle network latency and maintain game synchronization
- Scaled multiplayer server to support 100+ concurrent game sessions while maintaining low CPU and memory usage
